

GP/GPSP(ZS)

ADVANTAGES

SOLAR / GENERAL FABRICATION

UNIFORM COATING

Even Coating Weight

Excellent Adhesiveness

ROLL FORMING

No Spring Back

Uniform Hardness & Perfect Shape

Accurate Dimension After Forming

CORROSION RESISTANCE

Better Salt Spray Life

Anti Rust Post Treatment

- Superior Air Knife controls result in uniform coating.
- SPM's (Skin Pass Mill) High Precision minimizes the spring back action (Elastic, Stretcher-Strain).
- High Zinc coating & Post-treatment (Cr, Cr-free) gives high corrosion resistance.

ELECTRIC PANEL

FLATNESS

Table Top Flatness

No Diagonal Difference

No Bow / No Waviness

BETTER PUNCH ABILITY

Burr Free Edges

Uniform Hardness

Excellent Machinability

AESTHETIC APPEARANCE

Zero Spangle

Uniform Surface Roughness

Excellent Paintability

HOME APPLIANCE

EXCELLENT FORMABILITY

Smooth Surface

Easy to Bend, Stamp & Deep

Draw

CORROSION RESISTANCE

Better Salt Spray Life

Anti Rust Post Treatment

AESTHETIC APPEARANCE

Zero Spangle

Premium Surface Finish

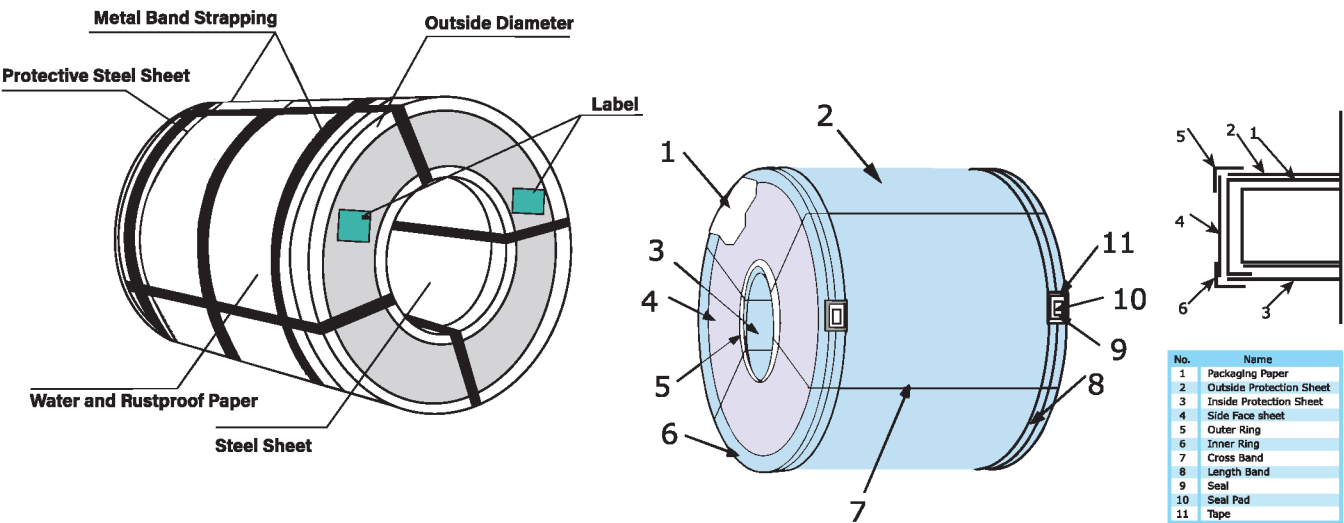

Excellent Paintability

- 1,000 ton SPM (Skin Pass Mill) produces flat shape strip without wave and bow.
- Continuous annealing and good chemical composition result in uniform hardness throughout the coil.
- Consistent Chemistry and Uniform hardness guarantees no edge burr after punching operation at customer.

SPECIFICATION

Classification	Shyam Metalics Continuous Galvanizing Line		
Date Of Commencement	May 2026		
Capacity	400,000 Tons		
Available Size	Thickness	0.20 - 2.0	
	Width	900mm - 1500mm	
	Weight	Max 25 ton	
Coating Weight (g/m²)	GI	Min 80	Max 400
Product Grade	Commercial Drawing	Deep Drawing	
	Structural	High strength	
Chemical Treatment	Cr free / Chromated		
Inner Diameter	508 (20') / 610 (24')		
Coil Weight	25 ton		

PACKAGING

DURABLE PACKAGING.

- The packaging consists water/rust proof paper/HDPE packing.
- Inner and outer ring for better handling of material.
- High strength straps for transportation to long distance.
